Individual visit to the Exhibition section INNOVATION 2017

CASTS building, ground floor, 1st – 4th floors, Novotného lávka 5, Prague 1

Section
The right in the business in digital age

Venue: Technology Centre CAS, Ve Struhách 27, Prague 6

Wednesday December 6, 2017

This thematic seminar is organised and provided by the Technology Centre CAS, as the coordinator of the Enterprise Europe Network in the Czech Republic, and it will focus on two areas of questions that are very actual at the present time.

The lectures in the first part of seminar will be aimed to explain the main changes and new obligations that the General Data Protection Regulation (the EU Regulation No. 2016/679) will soon bring to all entities that deal with personal data. In connection with the expected impacts of this new regulation on the Czech business environment, given the possible high financial penalties for potential breaches of personal data management obligations, a number of questions have emerged recently, which will be clearly explained by a legal expert specialized in data protection.

The second part of the seminar will be focused on similar actual issues of using author and employee works on the Internet. Experienced lecturer with long term experience in the field of copyright will summarize the main potential pitfalls. He/she will explain issues frequently encountered in companies in connection with the use of original and downloaded works (texts, images, photos, web content, etc.) in various Internet applications.

The seminar is designed especially for small and medium-sized businesses that use or develop modern technologies data in their own business. All lectures will be given in the Czech language.

Updated programme and registration: see www.een.cz

Participation in the seminar is free of charge upon prior registration.

Individual visit to the Exhibition section INNOVATION 2017

CASTS building, ground floor, 1st – 4th floors, Novotného lávka 5, Prague 1

Section
